

# FortiAnalyzer Administrator

***In this course, you will learn how to deploy, configure, and secure FortiAnalyzer. You will also learn how to register and manage devices, configure and manage high-availability, and manage disk quotas. Finally, you will explore the fundamentals of the logging and reporting management capabilities included on FortiAnalyzer.***

## Product Version

FortiAnalyzer 7.6

## Course Duration

- Lecture time (estimated): 4 hours
- Lab time (estimated): 3 hours
- Total course duration (estimated): 7 hours
  - 1 full day or 2 half days

## Who Should Attend

Security professionals involved in the deployment, administration, maintenance, and troubleshooting of FortiAnalyzer devices should attend this course.

## Certification

This course is not included in the certification program.

## Prerequisites

You must have an understanding of the topics covered in the FCA - *FortiGate Operator* course, or have equivalent experience.

## Agenda

1. Introduction and Initial Configuration
2. Administration and Management
3. ADOMs and HA
4. Managing Devices
5. Logs and Reports Management

## Objectives

After completing this course, you should be able to:

- Describe the purpose of FortiAnalyzer
- Describe the FortiAnalyzer operating modes
- Describe logging in a Fortinet Security Fabric environment
- Describe FortiAnalyzer Fabric
- Describe the log file workflow
- Manage administrative domains (ADOM)
- Configure network settings
- Configure secure administrative access
- Authenticate administrators using external servers
- Configure two-factor authentication
- Monitor administrative events
- Register and manage devices
- Perform a system configuration backup
- Monitor disk usage
- Enable and create ADOMs
- Describe Fabric connectors
- Configure log redundancy and encryption
- Configure log rollover and retention policies
- Manage reports
- Prepare firmware upgrade
- Configure and manage high-availability clusters
- Perform system maintenance tasks
- Perform log backups

## Training Delivery Options and SKUs

### Instructor-Led Training

Includes standard NSE training content delivered in person onsite, or live online using a virtual classroom application. Training is delivered within [public classes](#) or as a private class. Private requests are scoped, quoted, developed, and delivered by Fortinet Training (minimum quantities apply).

Contact your [Fortinet Resellers](#) or [Authorized Training Partners](#) to purchase this course.

### Self-Paced Training

Includes online training videos and resources through the [Fortinet Training Institute](#) library, free of charge.

You can purchase on-demand lab access with interactive, hands-on activities using the following methods:

- Credit card, through the course on the Fortinet Training Institute
- Purchase order (PO), through [Fortinet Resellers](#) or [Authorized Training Partners](#)

After you complete the purchase, you receive lab access and the accompanying lab guide within the self-paced course.

For training and lab SKUs, or additional purchasing information, refer to [Purchasing Process](#).

## ISC2

- CPE training hours: 4
- CPE lab hours: 3
- CISSP domains: Security Operations

## Program Policies and FAQs

For questions about courses, certification, or training products, refer to [Program Policy Guidelines](#) or [Frequently Asked Questions](#).
