

Exam Description

Cloud Security for Azure

Certification

This exam is part of the Fortinet Certified Professional - Public Cloud Security certification track. This certification validates your ability to secure cloud applications by deploying, managing, and monitoring Fortinet public cloud products.

Visit the [Cybersecurity Certification](#) page for information about certification requirements.

Exam

The *Fortinet NSE 6 - Cloud Security 7.0 for Azure* exam evaluates your knowledge of, and expertise with, Fortinet solutions in public cloud network environments based on Microsoft Azure.

The exam tests applied knowledge of the configuration and administration of Fortinet security solutions in Azure, and includes deployment and management tasks, configuration extracts, and troubleshooting scenarios.

Once you pass the exam, you will receive the following exam badge:

Audience

The *Fortinet NSE 6 - Cloud Security 7.0 for Azure* exam is intended for network and security professionals responsible for the configuration and administration of an Azure cloud security infrastructure using one or more Fortinet solutions.
