FORTINET

NSE Certification Program

Exam Description

FortiAnalyzer Analyst

Certification

This exam is part of the Fortinet Certified Professional - Security Operations certification track. This certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet security operations products.

Visit the Cybersecurity Certification page for information about certification requirements.

Exam

The *Fortinet NSE 5 - FortiAnalyzer 7.2 Analyst* exam evaluates your knowledge of, and expertise in, FortiAnalyzer devices.

The exam tests your applied knowledge of FortiAnalyzer operation from the security analyst point of view, including tasks such as log analysis, event management, incidents and reports, and automation with playbooks.

Once you pass the exam, you will receive the following exam badge:

FORTINET
NSE EXAM

FortiAnalyzer
Analyst

v7.2

Audience

The *Fortinet NSE 5—FortiAnalyzer 7.2 Analyst* exam is intended for network and security analysts who are responsible for Fortinet Security Fabric analytics and automating tasks to detect and respond to cyberattacks using FortiAnalyzer.
