

Exam Description

FortiClient EMS

Certification

This exam is part of the Fortinet Certified Professional - Network Security certification track. This certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet network security products.

Exam

The *FCP – FortiClient EMS 7.0 Administrator* exam evaluates your knowledge of, and expertise in, the FortiClient EMS solution.

This exam will test a candidate's knowledge and skills related to FortiClient endpoint development, FortiClient EMS basic to advanced configuration knowledge, day-to-day management of endpoints using EMS, and FortiClient EMS to deploy endpoint protection solution.

Once you pass the exam, you will receive the following exam badge:

Audience

The *FCP – FortiClient EMS 7.0 Administrator* exam is intended for network and security professionals responsible for the configuration and administration of endpoint protection solutions in an enterprise security infrastructure.
