

## NSE Certification Program

**Exam Description** 

# **FortiWeb**

## Certification

This exam is part of the Fortinet Certified Professional - Public Cloud Security certification track. This certification validates your ability to secure cloud applications by deploying, managing, and monitoring Fortinet public cloud products.

Visit the Cybersecurity Certification page for information about certification requirements.

#### Exam

The Fortinet NSE 6 - FortiWeb 6.4 exam evaluates your knowledge and skills to deploy, configure, administer, manage and monitor FortiWeb devices to protect web application servers from threats.

This exam will test a candidate's knowledge and skills related to basic to advanced configuration, day-to-day management, and using FortiWeb to protect web applications from threats.

Once you pass the exam, you will receive the following exam badge:
